

RUSHIKESH RAUT

Full-Stack Developer | AI Enthusiast

+91-8459829900 • rushikesh220703@gmail.com • [LinkedIn](#) • [Portfolio](#) • [Github](#) • [Leetcode](#)

PROFESSIONAL SUMMARY

Motivated Computer Engineering student (graduating 2026) with strong expertise in full-stack web development, AI integration and Data Structures & Algorithms. Proven track record through multiple hackathon wins and real-world projects. Passionate about building scalable, AI-powered products and contributing to high-impact engineering teams.

EDUCATION

Bachelor of Engineering – Computer Engineering

Expected: Jun 2026

Government College of Engineering and Research, Avasari (GCOEARA), Pune, India

TECHNICAL SKILLS

Languages	JavaScript, Java, Python, HTML, CSS
Frameworks	React.js, Node.js, Express.js, FastAPI
Databases	MongoDB, SQL
AI / ML	Generative AI, LangChain, LangGraph, Hugging Face, Google Gemini, RAG
Tools & Concepts	Data Structures & Algorithms, OOP, Git, GitHub, REST APIs

EXPERIENCE

Frontend Web Development Intern | CODTECH IT SOLUTIONS

Jan 2025 – Feb 2025

- Built and deployed 4+ web applications including quiz app real time chat app portfolio website and e-learning platform UI.
- Improved UI responsiveness and cross-browser compatibility, delivering clean, modern interfaces using React.js and CSS.

PROJECTS

MindSpace – Unified AI Workspace for Creators

Nov 2025

Tech: React, FastAPI, Google Gemini, Hugging Face, AI Image/Audio Generation, MindMap Builder [Live Demo](#)

- Built a unified AI-powered creative workspace integrating text generation, image synthesis and audio generation.
- Used Google Gemini and Hugging Face APIs for real-time AI assistance to brainstorm write and visualize ideas in one platform
- Deployed seamlessly on Vercel with a FastAPI backend for high-performance AI inference.

Crop Calendar – Agritech Platform

Jan 2026

Tech: MongoDB, Express.js, React.js, Node.js (MERN), AI-driven Insights, Real-Time Data [Live Demo](#)

- Developed a full-stack agritech platform helping farmers plan crop cycles with AI-driven insights and real-time agricultural data.
- Implemented dynamic crop scheduling, weather integration, and recommendation systems to improve farming efficiency.

CureHub – Hospital Management System

May 2025

Tech: MongoDB, Express.js, React.js, Node.js (MERN), AI/ML [Live Demo](#)

- Built hospital management system with patient registration appointment scheduling and AI-assisted diagnostic support.
- Integrated ML models for preliminary symptom analysis, enhancing the platform's value as a digital healthcare tool.
- Designed a clean, accessible UI ensuring ease of use for both patients and hospital staff.

ACHIEVEMENTS & HACKATHONS

- Winner – Web Development Domain, PVG HackHub National Level Hackathon (Oct 2025)
- 2nd Place – AgriTech Domain, Hackron 2.0, Ajeenkya DYP University (Jan 2026)
- Special Prize – Hack Your Path 6.0 Hackathon, FinTech Theme (May 2025)
- Finalist – HACKSAGON 2025, ABV-IIITM Gwalior (Top teams among 600+ participants) (Jun 2025)

CERTIFICATIONS

- Agentic AI Workshop, MERN Stack Course, React.js Course
